Summary

I'm a passionate filmmaker and photographer with five years of professional experience and over four major projects under my belt. I've developed a strong sense of leadership and teamwork throughout the creation of my various independent projects; and have an intense focus on creative expression and storytelling. I enjoy working in a variety of positions, whether it be behind the camera, computer, or pen. Regardless of current position I keep up to date with all my skill-sets, and bridge out to new ones whenever needed.
